

World's first SAT>IP certified Flat antenna (IP LNB integrated)

Optimum Solution for **SAT > IP™**

SELSAT > IP™ ANTENNA

Watch Satellite Broadcasting Channels on Your Mobile Devices!

SELSAT > IP antenna21
Frequency : 10,7 ~ 12,75 GHz
Gain : 34,5 dBi @ 12,7 GHz
Size : 566 × 300 × 70mm
Weight : 6,7kg

SELSAT > IP antenna36
Frequency : 10,7 ~ 12,75 GHz
Gain : 33,7dBi @ 12,7GHz
Size : 512 × 272 × 69mm
Weight : 5,7kg

Various designs and different performance for different satellite environment!
(Compact size but powerful performance)

SELSAT > IP antenna58
Frequency : 10,7 ~ 12,75 GHz
Gain : 36,1 dBi @ 12,7 GHz
Size : 517 × 517 × 70mm
Weight : 10,0kg

SAT > IP™
CERTIFIED
SAT>IP Certification

Up to 8 devices
simultaneously

Supports HD & UHD

No need to simulcast in IP

On Mobile devices

Small size

2 legacy outputs

No more Set-top Box

SELSAT > IP antenna is SELFSAT flat antenna equipped with SAT > IP technology. SELFSAT > IP antenna provides one step solution for SAT > IP technology as well as the most delightful and modern design. SELFSAT > IP antenna enables providing Full channels of HD & UHD satellite broadcasting through Wi-Fi and it supports up to 8 different mobile devices simultaneously.

One of the best features of SELFSAT > IP antenna is that it has 2 legacy outputs for conventional use, so it is easier to install the antenna itself while serving the most basic use of satellite antenna for conventional TVs.

Another great part of using SELFSAT > IP antenna is that all you need is one thin LAN cable instead of multiple coaxial cable connections. The world requires something more compact and light and SELFSAT > IP antenna is now taking part of the worldwide trend set by SAT > IP technology.

SELSAT>IP ANTENNA is..

With SELFSAT>IP ANTENNA..

SELSAT>IP antenna is SELFSAT Antenna complied with new SAT>IP technology. SELFSAT>IP antenna enables distributing Full channels of HD & UHD satellite broadcasting channels through Wi-Fi.

Satellite services become available on more devices. By using SELFSAT>IP antenna, you can watch live satellite broadcasting channels on more devices such as smart devices, laptop computers, conventional TV and so on... Set-top box is no more required.

Also, one SELFSAT>IP antenna can serve up to 8 different mobile devices simultaneously.

Also, SELFSAT>IP antenna is compatible with all existing on-air services as well as supporting resolutions up to HD and UHD (4k).

- For any homes**
- Each family member can choose the TV channel they want.
 - 8 different channels simultaneously.
 - Makes the best economical sense.
- For students' houses or hostels / office buildings and hospitals**
- No need to purchase a TV to watch satellite broadcasting channels.

- For remote areas that are difficult to use cable TVs or IPTVs**
- SELFSAT>IP antenna works even in the regions that internet cable cannot reach.
- For any events**
- Places with a lot of people. (Olympic stadium, parks, auditoriums...)
